

Flake Flooring Systems

The CONPELL Epo-Flake flooring system

The CONPELL Epo-Flake flooring system is a combination of a coloured epoxy floor coating with blended coloured flakes. These flakes are broadcast across the epoxy surface while the surface is still wet. Once the surface has been allowed to dry adequately two coats of high gloss clear top coat are applied. It creates an attractive, hardwearing, hygienic and bacteria resistant, easy to clean decorative coloured floor. This flooring system is ideal as an internal or external finish to domestic, industrial and commercial floors. *Can be applied to meet R9, R10 or R11 slip rating.*

IDEAL FOR:

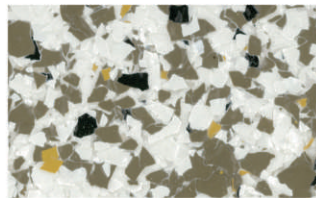

- Showrooms
- Garages
- Schools
- Workshops
- Driveways
- Patios
- Retail Floors
- Clinics
- Offices
- Galleries
- Factories
- Ablution Blocks
- Laundries
- Laboratories
- Warehousing
- Commercial Kitchens
- Changing Rooms
- Reception Areas

Or any area where an attractive, coloured, high performance floor is required.
