

CLEAN 'n' PROTECT

Description

The **CONPELL Clean'n'Protect** flooring system incorporates a low VOC water based concrete anti-dusting floor treatment. Our process includes the cleaning of your concrete surface using ride on mechanical scrubbers with the application of the CONPELL Dura Shield L-P, lithium based silicate concrete hardening agent. The completed surface is rendered dust free and easy to clean.

Features & Benefits

- ▶ Stops concrete dusting and renders the surface easy to clean
- ▶ Low VOC, Green star building compliant
- ▶ Provides complete client hand over solution
- ▶ Finished surface is compatible with most glues & adhesives
- ▶ Easy to apply with no excess water usage
- ▶ 10 year warranty

Typical Applications

CONPELL Dura Shield L-P is specifically designed to harden the concrete surface using Lithium/Potassium based silicates and is suitable for industrial and commercial concrete surfaces.

CONPELL Dura-Shield L-P is designed for use on internal and external concrete surfaces including single, multi story basement and above ground car parks, external hardstand areas, warehouse and factory floors or anywhere a durable hardwearing concrete surface is required.

Clean'n'Protect Projects

- ▶ Hyde Apartments
- ▶ Bunnings warehouse
- ▶ Brooklyn on Brooks
- ▶ Mosaic Apartments
